
stationary: Concept A throughout; no change point of any kind.
abrupt_swap: Abrupt change of P(Y|X): A -> B (swap) at t=5000; P(X), P(Y) preserved.
gradual_swap_w1000: Gradual A -> B (swap): linear mixture ramp over [4500,5500).
recurring_swap: Recurring abrupt drift A->B->A->B at t=[2500, 5000, 7500].
proportion
share of concept-B examples (w=200)
